

Get your Ham Radio License in Eureka

Classes in 2023 Starting Thursday

April 6th 5:00 PM to 8 PM

**North Point Grill Front Room Hwy 93 North
Eureka Montana**

We will be having classes for 6 weeks at 5:00 PM on Thursdays with the exam on the last Thursday May 11th. You can test for any class of license. Testing is just \$10

Ham radio is the best emergency and safety network available and will be used locally as well as world wide in the event of any disasters, natural or man made.

Study books will be available at the first class. You will need to register for the class to get a book by calling [Don Johnson at 406 889 5886](tel:4068895886)

The licenses do not require Morse code, and the test is just 35 questions multiple choice. You can get 9 questions wrong and still pass, and during the study you will be given all the answers up front. You can also study on line at www.QRZ.com

We will have equipment on display and there will be demonstrations of various equipment. Eureka Repeater Group sponsoring the class has many local repeaters covering all of Lincoln County and into Flathead county, and much more.

Be prepared to increase your safety by having communications available in any emergency situation at any time day or night with these systems.
